

Demo Day Overview:

Come network with us!

What is Demo Day?

- A time to showcase your projects
- An opportunity to network with industry professionals
- A time to build connections with current + former students
- A space to give + receive professional advice and feedback
- Celebration of your Bootcamp experience and a chance to reunite with classmates

Ways to Participate:

PRESENTING STUDENT:

- Demo a project that you have created in class
 - This includes explaining what you created and why you created it
- You will present to industry professionals, networking students, and program alumni in attendance

NETWORKING STUDENT:

- Attend the event to watch students demo their projects
- Interact with industry professionals and program alumni in an informal capacity

Preparing for Demo Day:

- Register (each student will need to complete this)
- Prepare your materials (resume / business cards)
- Dress for success (business casual)
- Review who will be in attendance as an industry professional and prep a few questions to ask guests (list of attendees will be on the RSVP page)
- Use the [checklist](#) as a guide to be prepared

Presenting at Demo Day:

- Students must provide their own laptop (a 2nd monitor is optional)
- Make your presentation space look inviting!
 - Display your materials (resume, business cards)
 - Feel free to be creative with your station (candy, decorations, etc)
- Greet industry professionals and be sure to ask them questions
